Industry Exhibition

Student Poster Session

- 124 Students, 97 grants
- Sincere thanks to all institutions supporting the Student Grant Programme
- Oliver Boine-Frankenheim & all poster judges
- Rob Yarbray and Industry Prize Committee
- Todd Satogata for compiling the program booklet

EPS Student Poster Award Winners

Annalisa Romano, CERN

“Macroparticle Simulation Studies of LHC Beam Dynamics in the Presence of the E-Cloud”

Daniel Leslie Hall, Cornell University

“Impact of Trapped Magnetic Flux and Thermal Gradients on the Performance of Nb₃Sn Cavities”

Industry Student Prize Winners

Hiroaki Takeuchi (The University of Tokyo, Tokyo)

Structural Analysis and Evaluation of Actual PC Bridge Using 950 keV/3.95 MeV X-Band Linacs

Yumi Lee (Korea University Sejong Campus, Sejong)

Design Study of Drift Tube Linac for BNCT Accelerator

Jean-Michel Antoine Bereder (The University

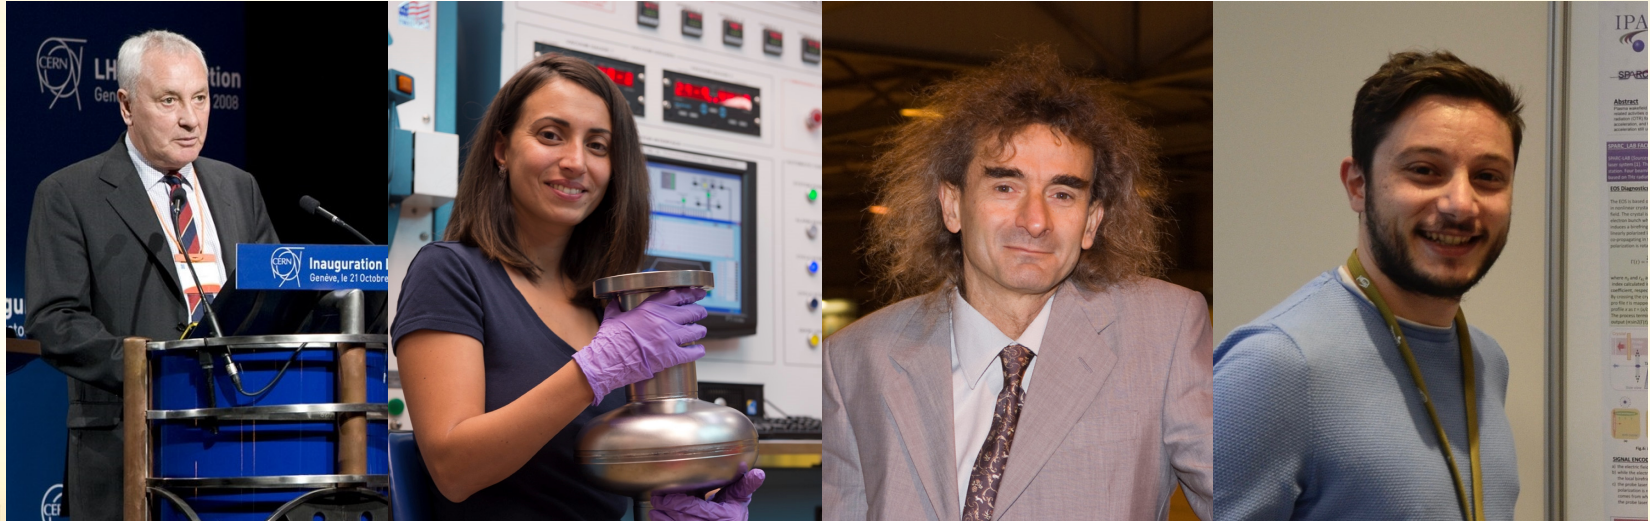

of Tokyo, Ibaraki-ken Development

of a 3.95 MeV X-Band Linac-Driven X-Ray Combined

Neutron Source)

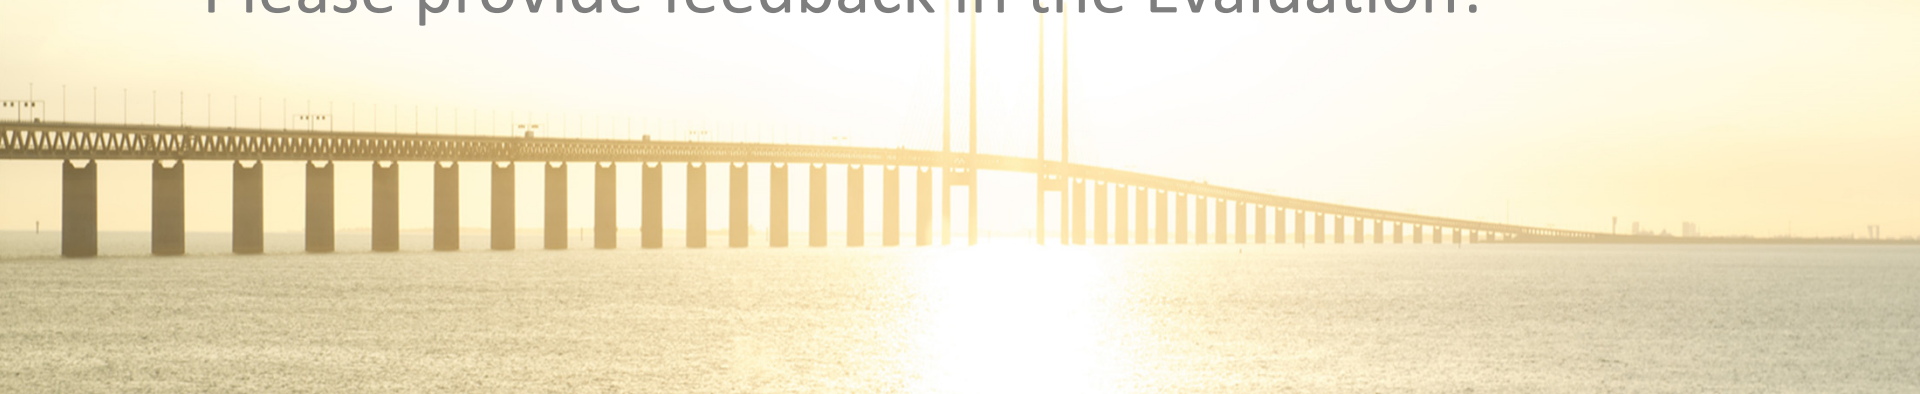

EPS-AG Prize winners

Many thanks to the Prize Committee chaired by Oliver Brüning.

First Peer Reviewing at IPAC

- 373 requested, 123 actually uploaded paper in time
- 186 referees participated
- **110** accepted, **13** rejected
- \approx 100 PRAB citations in these (impact factor)
- Please provide feedback in the Evaluation!

Peer Review Task Force

EPS-AG task force: Ralph Assmann, Matt Arena, Giovanni Bisoffi, Marie-Emmanuelle Couprie, Mike Seidel

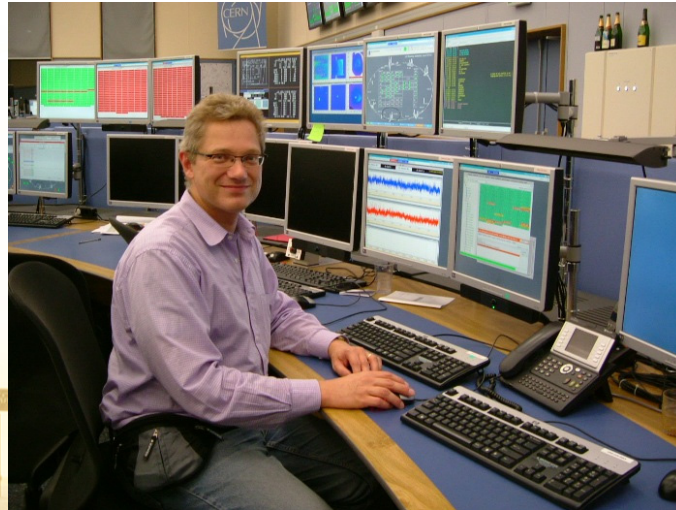

MC coordinators (SPC) plus many reviewers

Many thanks, it was a success!

PRAB special edition & Booklet on Future Accelerator Projects and Upgrades

- Booklet can be found on JACOW main page (jacow.org)

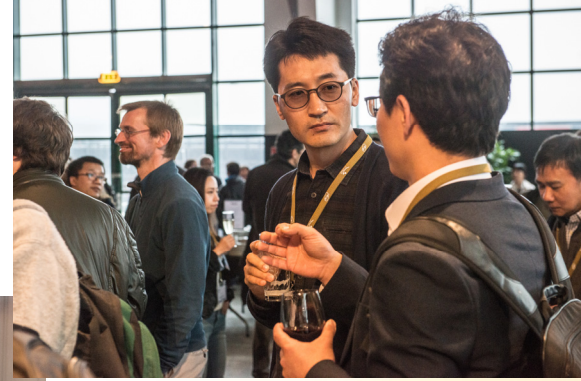

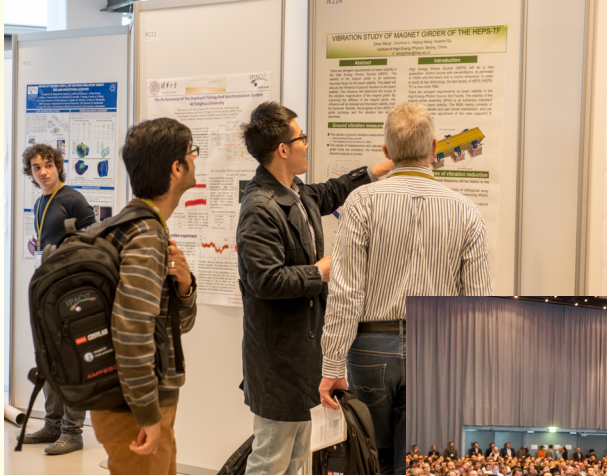

Many thanks to Frank Zimmermann!

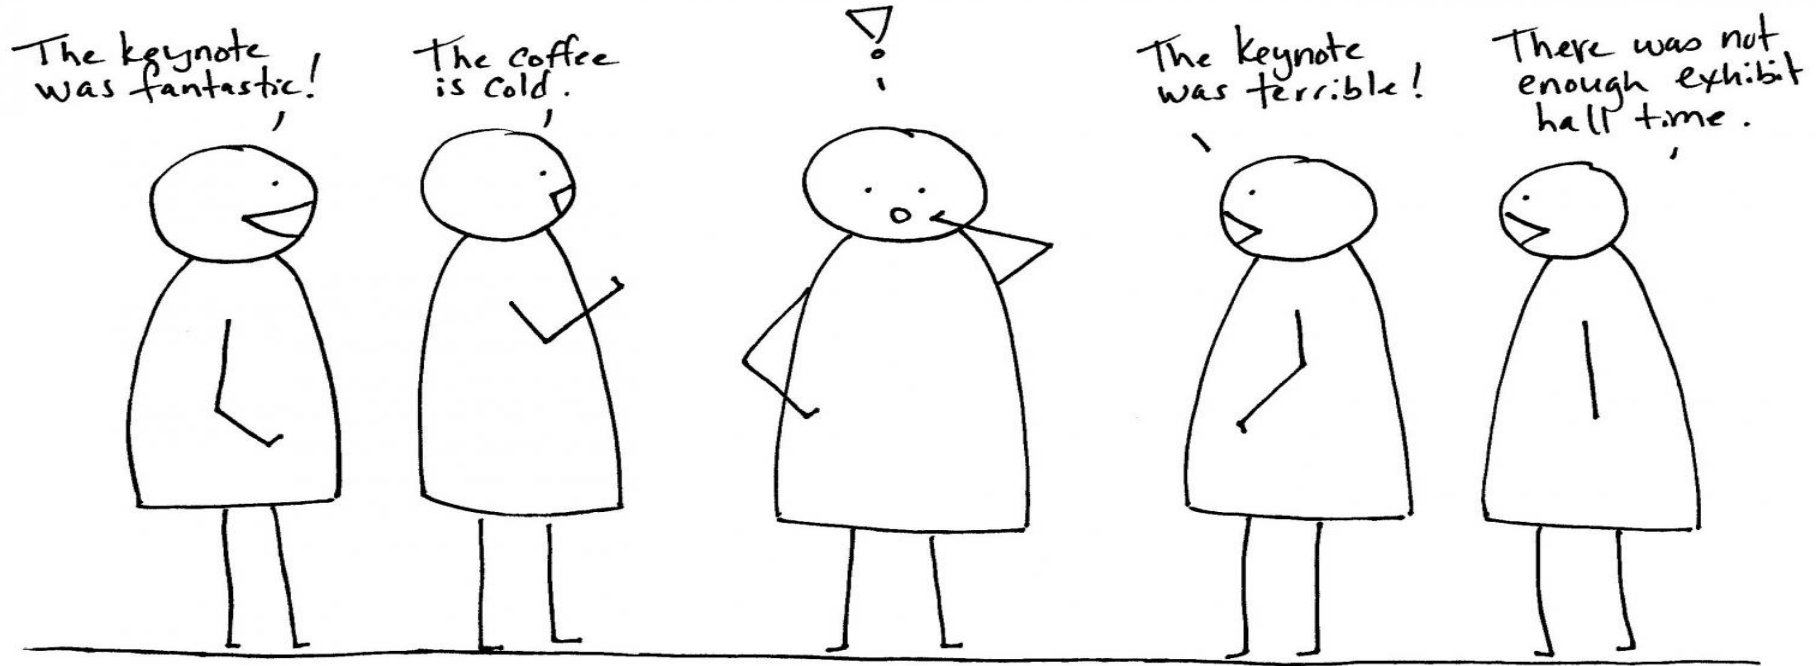

Gianluigi Arduini, CERN
Chairman EPS-AG and OC

Particle Accelerator Community

Evaluation is important

JACOW Team

The LOC ground forces and chair

sincere thanks to all hosts and supporters

Good-bye Copenhagen, hello Vancouver
