#### About *Physical Review Special Topics - Accelerators and Beams*

*Physical Review Special Topics - Accelerators and Beams* is a peer-reviewed online open-access journal distributed without charge to authors and readers and funded by contributions from national and international laboratories and other partners. The articles are published by the American Physical Society under the terms of the [Creative Commons Attribution 3.0 License](#).

It covers the full range of accelerator science and technology: subsystem and component technologies, beam dynamics; accelerator applications; and design, operation, and improvement of accelerators used in science and industry. This includes accelerators for high energy and nuclear physics, synchrotron radiation production, spallation neutron sources, medical therapy, and intense beam applications. [More...](#)
