R Mercado – Integrating EtherCAT based I/O into EPICS at Diamond

## Conclusion

- EtherCAT integrated into EPICS. Uses
  - PREEMPT\_RT Linux
  - Etherlab Ethercat Master for Linux
  - Asyn
- Scanner broadcast bus data to several Soft IOCs for segregation of areas. Automatic Asyn port creation
  - One port per slave
  - One port for master status
- Implementation tested with slaves from 3 manufacturers
- Transition from VME based IOCs running vxWorks to Linux x86 PC IOCs running EtherCAT is relatively straightforward
