

Free Software for Hardware Development workshop

A quick summary

Javier Serrano, Maciej Sumiński, Tomasz Włostowski

CERN, Geneva, Switzerland

ICALEPCS 2015
Melbourne, Australia
22 October 2015

Aim

Have it as easy as the software people!

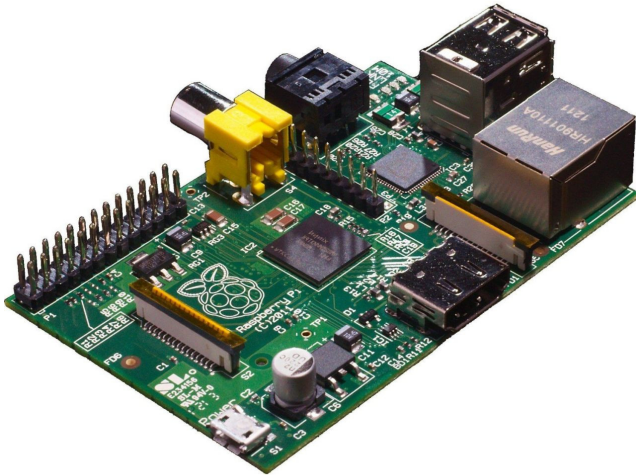

- Share designs easily with other institutes and companies.
- Benefit from peer review.
- Bring in extra help from outside one's institution.
- Can KiCad help do this in the future?

Attendees

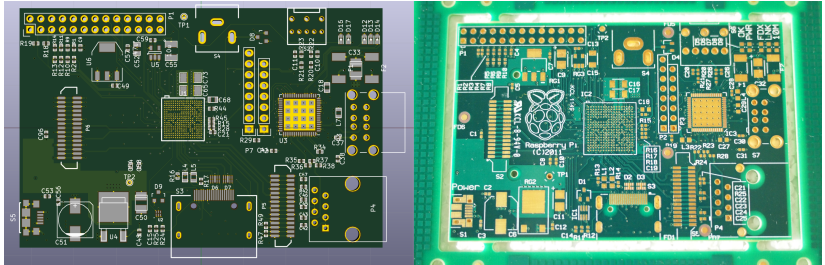

Mostly hardware designers

- 29 people registered.
- Take message back home!

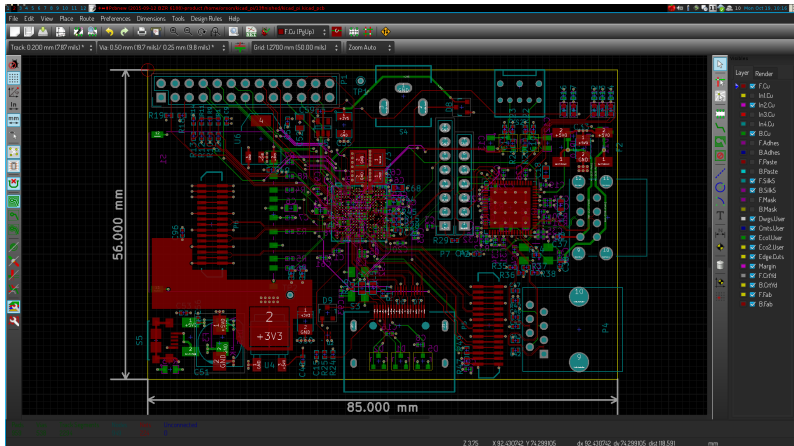

Raspberry Pi board

Raspberry Pi board

Raspberry Pi board

Use it!

Make it better and sustainable

- Get feedback from users, including CERN drawing office.
- Continue contributing code.
- Bring in commercial companies for development and support.
- Promote it as a way of easily sharing PCB designs.
