

# Progress towards IBIC 2013

Ian Martin

JACoW Team Meeting  
Shanghai Institute of Applied Physics  
14-17 November 2011

# Background

- International Beam Instrumentation Conference (IBIC) combines Beam Instrumentation Workshop (BIW) and Beam Diagnostics and Instrumentation for Particle Accelerators Conference (DIPAC) and extends to include Asia
- (To be) held annually
- Rotates between Asia-Pacific (2012), EMEA (2013) and Americas (2014).
- Mirrors IPAC series, leading by 1 year
- 1<sup>st</sup> IBIC to be hosted by KEK, Japan in October 2012
- The conference aims to provide a forum in which knowledge, ideas and experience in the field of beam diagnostics and instrumentation for particle accelerators can be exchanged.

# IBIC 2013

- IBIC 2013 will be hosted by Diamond Light Source
- To be held in 16-19 September 2013
- Programme Committee to be set up about 1 year prior
- Anticipating around 300 delegates

JACoW TM, SINAP (November 2011)

# Diamond Light Source

JACOW TM, SINAP (November 2011)

# The Venue

- Said Business School
- Located in centre of Oxford
- ~25km from Diamond
- Accommodates 300 delegates

# IBIC 2013 and the SPMS

- Anticipate the SPMS will be used for:
  - General scientific program management
  - Collection of abstracts / contributions
  - Production of abstracts brochure
  - Processing / editing of contributions
  - Produce conference proceedings using JPSP
- Other processes will use other systems:
  - Delegate and industrial exhibition registration and payment through in house event management
  - Accommodation by external provider
  - Website will be [www.IBIC2013.org](http://www.IBIC2013.org)
- An instance of the SPMS has been set up at the European RSC by Ronny Billen
