

# IPAC' 11

## Second International Particle Accelerator Conference

Christine Petit-Jean-Genaz  
Conferences Coordinator for IPACs in Europe  
IPAC' 11 Scientific Secretariat

# IPAC'11

- 2<sup>nd</sup> International Particle Accelerator Conference in new series
- 5-9 September, San Sebastian, Spain
- 1100 full time delegates, 30 countries
- 1300 oral or poster presentations
- 107 supported students
- 82 industrial exhibitor booths

- All Organizing Committees
  - 50% from the region
  - 2 x 25% from the other two regions
- Scientific Programme covered developments in all three regions
  - 60% orals from Europe
  - 40% from the rest of the world
- First IPAC event with a NA-PAC event in parallel
  - 40% fewer US Delegates than for EPAC

- Generally perceived as well organized
  - Weather helped
  - Excellent social events, conference bags, cookies and refreshments ...
- Complicated issues:
  - PCO refused to use SPMS for Delegate Registration, but
    - Could get around this by registering VIA SPMS, into the PCO software, piped back into SPMS for statistics, etc.
- IT Manager resigned just in advance of the conference
- Venue's internet/software/hardware not up to required standard

- 43 Invited Oral Presentations
- 51 Contributed Oral Presentations
- 1157 Poster Presentations
- 107 supported students

Contributions (1251)		
Assignable	1246	99.60%
Unassigned	0	0.00%
No Files	5	0.40%
Assigned	1246	100.00%

Initial		
Red	116	9.31%
Yellow	583	46.79%
Green	547	43.90%

Final QA		
QA Remaining	0	0.00%
Final QA Failed	0	0.00%
Final QA Passed	1245	100.00%
Publishable	1245	100.00%

# Saltmines

- Fewer editors, in particular since two cancelled at the last minute
- Soft/hardware installation situation reduced productivity
- All papers processed, but QA not complicated
- QA complicated 4 days after the conference, and proceedings published 3 weeks later
- But unpleasant, and no time off

- Was really Saltmines Duty ...
  - Thanks to all editors present for exceptional performance and devotion to duty
