Jonas Lamaack, Univ. of Hamburg  
Philipp Niedermayer, GSI

## CONFERENCE OVERVIEW

IBIC is a fruitful and successful gathering of the world's beam instrumentation community and it is dedicated to exploring the physics and engineering challenges of beam diagnostic and measurement techniques for particle accelerators.

The 12th International Beam Instrumentation Conference, IBIC 2023, was hosted by the Canadian Light Source and held in Saskatoon, Canada between September 10th and 14th 2023.

IBIC 2023 included overall

- 38 invited and contributed talks,
- 2 tutorials,
- 114 posters, and a
- 3-day long vendor exhibition with 9 exhibitors that could be visited during the conference.

In total, 182 participants coming from 18 countries got together during the conference.

The Organizing Committee warmly thank all the participants for their enthusiastic contribution to IBIC 2023.
