- ...

Topics

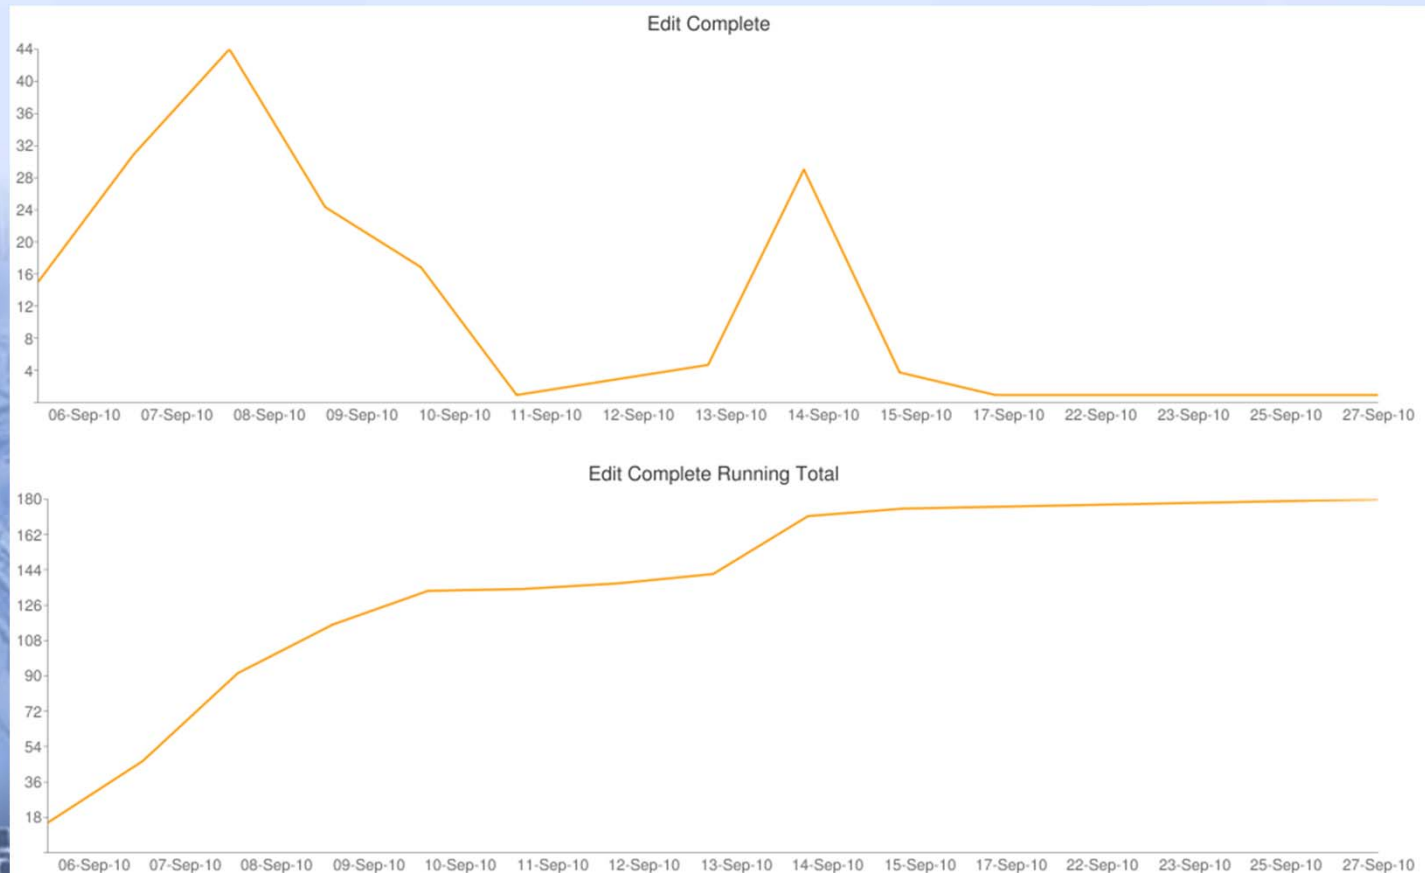

- 01 Cyclotrons applications
- 02 Newly operating cyclotrons
- 03 Operational cyclotrons: developments and status
- 04 Facilities under construction
- 05 Projects and proposals
- 06 FFAG accelerators
- 07 High beam intensity operation
- 08 Radiactive beams
- 09 Beam dynamics
- 10 Ion source, strippers and targets
- 11 Radio frequency systems
- 12 Magnet and vacuum
- 13 Beam transport, diagnostics and control

**Tentative,
significant,
comprehensive**

Statistic after conference

- 170 participants from 21 countries
 - 31 invited oral reports
 - 21 contributed oral reports
 - 92 posters
 - 10 sponsors
 - 116 papers
- } 144 contributions

- 3 editors process papers on-site, 1 editor works remotely
- Processing status:
Red 9.40% Yellow 4.27% Green 86.32%

Features of CYCLOTRONS'10

- Passional、circumspect, such as
 - a) lots of students volunteers
 - b) picking up at any time
 - c) lunch and dinner is free
 - d) provide additional tour around Lanzhou for accompanying persons
 - e)...

- Efficiently, such as
 - a) four group receptions working at the same time according to the order of name's letter, no waiting, no heavy traffic
 - b) meeting room is orderly
 - c) three editors finish the proceeding of all papers and talks nearly
 - d) ...
