Proceedings Status (18 Nov 2010)

- Submitted 323/339 (excluding 14 not presented posters)
- Edited 322/339
- QA done 302/339
- 16 not submitted papers
 - 9 invited orals
 - 7 posters
- We decided to wait another month for the invited oral authors without submission.
 - Asked them individually to submit the paper by the end of November
- We are asking permission to publish pdf version of transparencies for invited orals
 - If no answer, a transparency will not be published.
- Conference photos to be arranged
- We wish to publish the proceedings by the end of this year.

Problems encountered in LINAC10

- Printer
 - Canon LBP7700C
 - Problem in printing from Mac (probably due to driver problem)
 - Choice of good printers both for Windows and MaC was important
- Uploading a large file (a movie file >100MB) to the file server
 - Checked options of the upload script, Apache settings, but never solved
- Unable to upload transparency files for oral-posters
 - Since they were defined as "poster", by default they did not accept transparencies. We fixed it.

Welcome to LINAC10 conference

We are pleased to announce that the 25th International Linear Accelerator Conference, LINAC10, is to be held in Tsukuba, Japan, from 12 to 17 September 2010, jointly organized by KEK, JAEA, and J-PARC. Tsukuba is Japan's largest science city with more than 300 research institutes, and is one of world's key sites for basic research in science and technology. This bi-yearly conference series exclusively covers the linac technology and related science, and it provides experts from around the world with a unique opportunity to discuss the latest advances in the linac research and development. We enthusiastically
