

SRF 2023 Retiree Ceremony

29 June 2023

A remembrance ceremony was held at the 2023 International Conference on Radio-Frequency Superconductivity (SRF 2023). The ceremony was held after the special commemorative session celebrating 60 years of SRF research. The local organizing committee (LOC) sought nominations from the SRF community for persons to be named in the ceremony. The LOC appreciates the information provided by the community and apologizes for possible omissions. A total of 16 people were remembered, as listed below. The ceremony was hosted by LOC Chair Ting Xu (FRIB/Michigan State University). Names were read by Cristian Pira (INFN-Legnaro) and Sergey Belomestnykh (Fermilab). According to the recollections of the LOC members, this was the first time that such an event was held amongst the SRF community.

Name	Affiliation Links
Bernard Aune (-2011)	CEA-Saclay, France Announcement (CEA) • Hommage (CEA)
Daniel Boussard (1937-2018)	CERN, Switzerland Obituary (CERN)
